Note—An updated checklist of pages in Code is included, following Table of Contents.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that this is crucial for ensuring transparency and accountability in the organization's operations.

2. The second part of the document outlines the various methods and tools used to collect and analyze data. It highlights the need for a systematic approach to data collection and the importance of using reliable and valid measurement instruments.

3. The third part of the document focuses on the ethical considerations surrounding data collection and analysis. It discusses the importance of obtaining informed consent from participants and ensuring that their data is protected and used only for the intended purposes.

4. The fourth part of the document discusses the challenges and limitations of data collection and analysis. It highlights the potential for bias and error in data collection and the need for careful interpretation of the results.

5. The fifth part of the document provides a summary of the key findings and conclusions of the study. It emphasizes the importance of ongoing monitoring and evaluation to ensure the effectiveness of the organization's operations.

6. The final part of the document provides a list of references and a glossary of key terms. It also includes a list of appendices and a list of figures and tables.

CODE OF ORDINANCES
TOWN OF
MAIDEN, NORTH CAROLINA

GENERAL ORDINANCES OF THE TOWN

Published by Order of the Town Council

MUNICIPAL CODE CORPORATION

Tallahassee, Florida

1988

PREFACE

This Code constitutes a complete recodification of the ordinances of the Town of Maiden, North Carolina, of a general and permanent nature.

Source materials used in the preparation of the Code were the 1976 Code, as supplemented through 1983, and ordinances subsequently adopted by the town council. The source of each section is included in the history note appearing in parentheses at the end thereof. The absence of such a note indicates that the section is new and was adopted for the first time with the adoption of the Code. By use of the comparative tables appearing in the back of this volume, the reader can locate any section of the 1976 Code, as supplemented, and any subsequent ordinance included herein.

The chapters of the Code have been conveniently arranged in alphabetical order and the various sections within each chapter have been catchlined to facilitate usage. Footnotes which tie related sections of the Code together and which refer to relevant state laws have been included. A table listing the state law citations and setting forth their location within the Code is included at the back of this volume.

Numbering System

The numbering system used in this Code is the same system used in many state and municipal codes. Each section number consists of two component parts separated by a dash, the figure before the dash referring to the chapter number and the figure after the dash referring to the position of the section within the chapter. Thus, the first section of Chapter 2 is numbered 2-101 and the fourth section of Chapter 12 is 12-104. Under this system, each section is identified with its chapter and at the same time new sections or even whole chapters can be inserted in their proper place simply by using the decimal system for amendments. By way of illustration: If new material consisting of three sections that would logically come between sections 2-101 and 2-102 is desired to be added, such new sections would be numbered 2-101.1, 2-101.2 and 2-101.3 respectively. New chapters may be included in the same manner. If the new material is to be included between Chapters 9 and 10, it might be designated as Chapter 9.5. Care should be taken that the alphabetical arrangement of chapters is maintained when including new chapters. New articles and new divisions may be included in the same way or, in the case of articles, may be placed at the end of the chapter embracing the subject, and, in the case of divisions, may be placed at the end of the article embracing the subject, the next successive number being assigned to the article or division.

Indices

The indices have been prepared with the greatest of care. Each particular item has been placed under several headings, some of the headings being couched in lay phraseology, others in legal terminology, and still others in language generally used by municipal officials and employees. There are numerous cross references within each index which stand as guideposts to direct the user to the particular item in which he is interested.

Looseleaf Supplements

A special feature of this Code to which the attention of the user is especially directed is the looseleaf system of binding and supplemental servicing for the Code. With this system, the Code will be kept up-to-date periodically. Upon the final passage of amendatory ordinances, they will be properly edited and the appropriate page or pages affected will be reprinted. These new pages will be distributed to holders of copies of the Code, with instructions for the manner of inserting the new pages and deleting the obsolete pages.

Successfully keeping this Code up-to-date at all times will depend largely upon the holder of the volume. As revised sheets are received, it will then become the responsibility of the holder to have the amendments inserted according to the attached instructions. It is strongly recommended by the publishers that all such amendments be inserted immediately upon receipt to avoid misplacing them and, in addition, that all deleted pages be saved and filed for historical reference purposes.

Acknowledgments

The publication of this Code was under the direct supervision of Erin L. McLaughlin, Supervising Editor, of the Municipal Code Corporation, Tallahassee, Florida. Credit is gratefully given to the other members of the publisher's staff for their sincere interest and able assistance throughout the project.

The publishers are most grateful to Town Manager, J. Michael Moore, Town Attorney, Samuel H. Long III, Town Clerk, Sharon Sipe, for their cooperation and assistance during the progress of the work on this Code. It is hoped that their efforts and those of the publishers have resulted in a Code of Ordinances which will make the active law of the town readily accessible to all citizens and which will be a valuable tool in the day-to-day administration of the town's affairs.

Checklist of Up-to-Date Pages

(This checklist will be updated with the
printing of each Supplement)

From our experience in publishing Looseleaf Supplements on a page-for-page substitution basis, it has become evident that through usage and supplementation many pages can be inserted and removed in error.

The following listing is included in this Code as a ready guide for the user to determine whether the Code volume properly reflects the latest printing of each page.

In the first column all page numbers are listed in sequence. The second column reflects the latest printing of the pages as they should appear in an up-to-date volume. The letters "OC" indicate the pages have not been reprinted in the Supplement Service and appear as published for the original Code. When a page has been reprinted or printed in the Supplement Service, this column reflects the identification number or Supplement Number printed on the bottom of the page.

In addition to assisting existing holders of the Code, this list may be used in compiling an up-to-date copy from the original Code and subsequent Supplements.
